NOTE

- During playback, turning pitch control playback ON or OFF might cause the playback sound to skip momentarily.
- Using pitch control playback with a data CD (MP3, MP2, WAV) sometimes causes the playback sound to skip.
- When the pitch control function is on, digital output is possible, but the sampling frequency will be changed by an amount equivalent to the pitch control value. When the pitch control function is on, some devices might not be able to receive this unit's digital output.
- The pitch control function cannot be used with Bluetooth.
